# BARBORA GALLOVA

Greetings!

I am a dynamic performer and stunt artist with a strong foundation in film, physical performance, and emotionally grounded acting. With a lifelong passion for the arts, I have developed a versatile presence that blends authenticity with physical precision.

Over the past five years, I have committed to my craft full-time, building my career from background roles to professional on-set work. My experience across productions has given me a deep understanding of set etiquette, camera awareness, and collaborative storytelling.

With a natural affinity for movement, sport, and adrenaline, I expanded into stunt performance, bringing strength, control, and fearlessness to physically demanding roles.

These combined skills have shaped me into a strong action actress, where physicality and performance meet seamlessly. I bring intensity, control, and authenticity to action-driven roles, which has become my niche within the industry.

What sets me apart is my commitment to honesty in performance. I bring real emotion, focus, and reliability to every role, whether in front of the camera as an actor or as part of a crew team. My adaptability, work ethic, and positive presence make me a valuable addition to any production.
