RIGGING & TECHNICAL EXPERIENCE

- Supporting stunt coordinators and key riggers in the setup, testing, rehearsal and execution of stunt work.
- Building ground-mounted, crane-mounted, building-mounted, vehicle-mounted and suspension truss rigs.
- Setting up and operating vertical and horizontal travel rigs, winches and winch systems, hand-pull rigs, pneumatic ratchets, decel rigs and drop rigs.
- Setting up wired camera rigs and camera track rigs, with a strong focus on crew safety.
- Vehicle preparation for stunts including car cannons, ratchets and dead stops.
- Fire preparation and safety support for stunt performers completing burns.
- Crane setups, heavy lifting coordination and communication with crane operators.
- Rigging points on cranes, buildings, vehicles, Manitous, truss rigs, warehouses, studio gantries, mountains, cliff faces and bridges.
- Rope access for difficult-access locations, ascending and descending, abseiling, working safely at height, lifting ratios and crew safety.
- Steel and wood fabrication, including designing, building and altering structures using power tools and welding equipment.

SKILLS & CERTIFICATIONS

- IRATA Level 1 Rope Access Technician - certification no. 1/150876 (2019, 2023, 2026).
- Stunt rigging and SFX wire rigging.
- Fabrication: steelwork and woodwork.
- Precision driving, drifting and stunt performance.
- Strong understanding of stunt safety, rehearsals and on-set execution.
- Clear communication across departments and strong on-set etiquette.
- Sport and outdoor experience including mountain biking, paddling, trail running, tactical & defensive shooting, motorbike riding, bungee jumping, rope climbing, bridge swings, rugby, hockey, water polo, gym, skateboarding and horse riding.
